

- Prof. Amr Elmasry

\*New trends in graph theoretic algorithms\*

Dr. Amr Elmasry received the B.Sc. and M.Sc. degrees in Computer Engineering from the Faculty of Engineering at Alexandria University, Alexandria, Egypt, in 1991 and 1995, respectively, and the Ph.D. in Computer Science from the Computer Science Department at Rutgers University, New Jersey, in 2001. He worked as a senior researcher at Max-Planck Institute for Informatics and as a professor at the University of Copenhagen and a professor and the head of the Computer Engineering Department at Alexandria University of Egypt. Dr. Elmasry is currently the dean of the Faculty of Engineering at Egypt University of Informatics. Through the years, he coauthored over 100 research papers. His research interests include: Data Structures, Algorithms, and Computational Geometry.
